BREMEN'S WORLD OF NATURE DISCOVERY

WWW.BOTANIKA-BREMEN.DE

A lush tropical forest scene with sunlight filtering through the trees and a rocky stream in the foreground. The scene is filled with various tropical plants, including palm trees and ferns. The sunlight creates a bright, hazy atmosphere, and the stream flows over smooth, dark rocks. The overall mood is serene and natural.

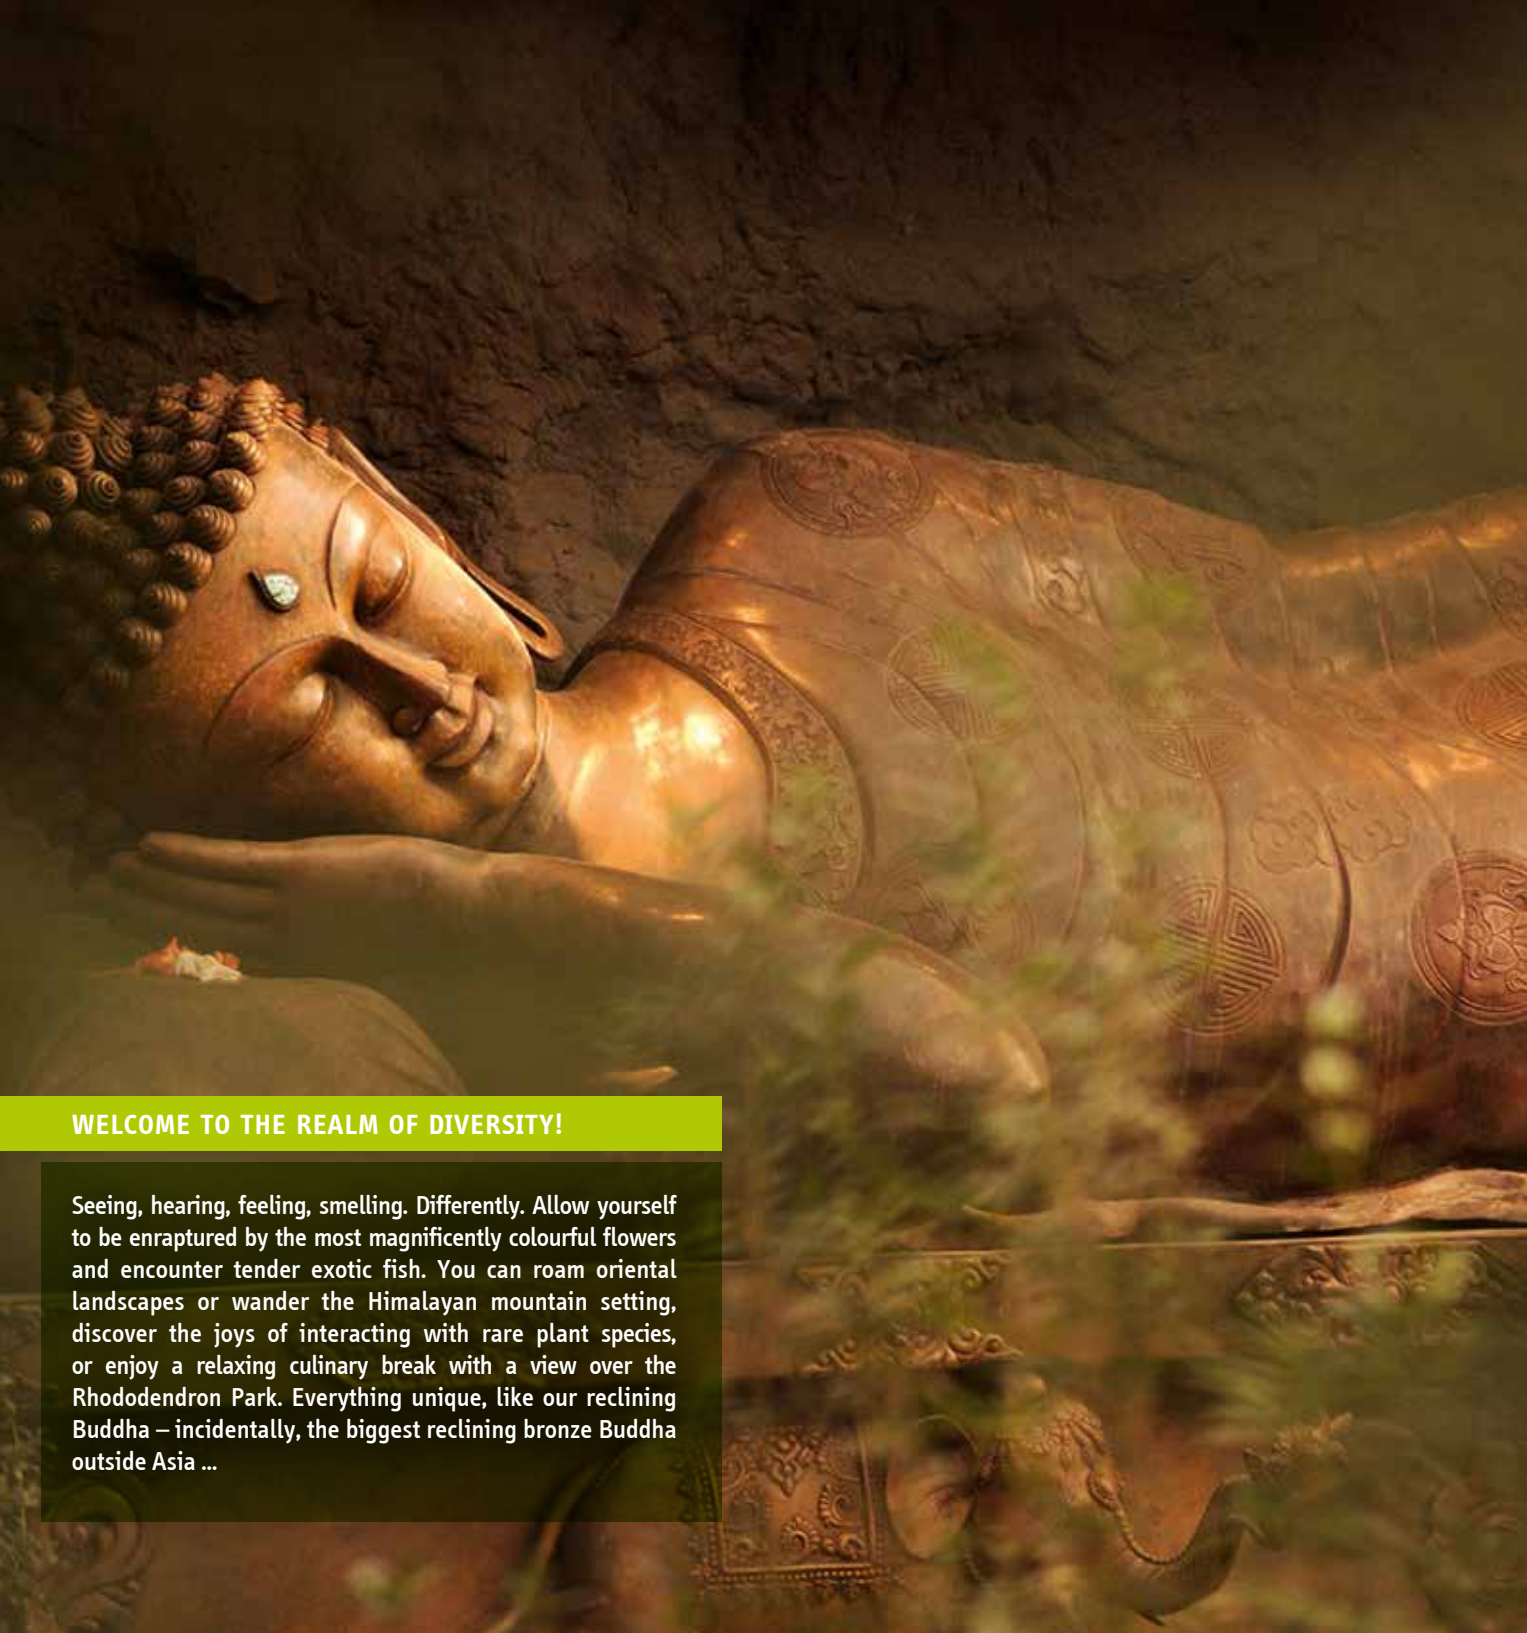

AMAZING. BEAUTIFUL. GREEN.

We rarely fully appreciate the true beauty and diversity of what Mother Nature brings us – be these small wonders or great sensations. botanika puts these gifts of Mother Nature on centre stage in an extraordinary, astounding, bright and unobtrusive way. This extraordinary experience turns your visit into something special and different. Each and every time.

THE BOTANIKA: A WORLD APART. A WORLD FOR YOU!

Plants are wonderfully quiet. But that makes them anything but boring! They have great tales to tell – especially when they have their origins in far-off lands and find a home in surroundings like the botanika: a unique, mini-universe that is a blend of excitement and relaxation, amazement and adventure from all four corners of the world. Definitely an unforgettable experience for people of all ages!

WELCOME TO THE REALM OF DIVERSITY!

Seeing, hearing, feeling, smelling. Differently. Allow yourself to be enraptured by the most magnificently colourful flowers and encounter tender exotic fish. You can roam oriental landscapes or wander the Himalayan mountain setting, discover the joys of interacting with rare plant species, or enjoy a relaxing culinary break with a view over the Rhododendron Park. Everything unique, like our reclining Buddha – incidentally, the biggest reclining bronze Buddha outside Asia ...

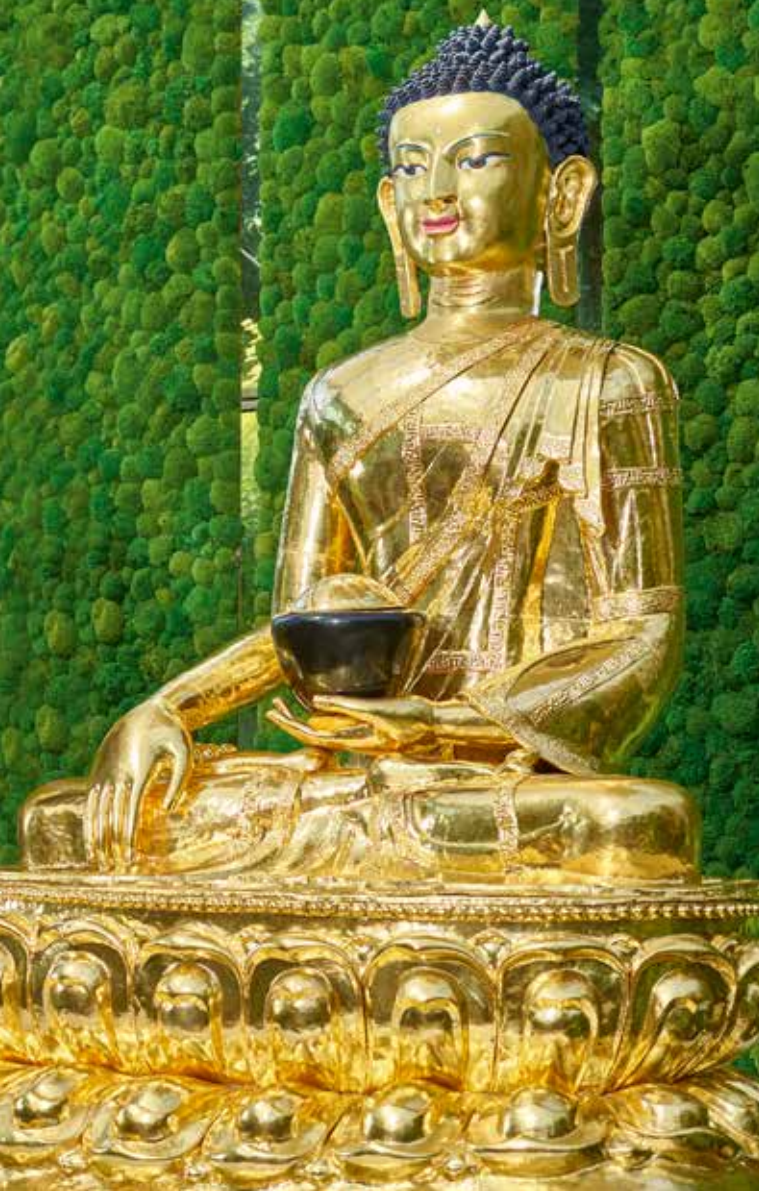

THE BOTANIKA: AN INCREDIBLE EXPERIENCE...

As much as flora and fauna differ, they still belong together. To experience both of them immediately is particularly enjoyable in the botanika. At any time of the year there are different exhibitions and possibilities to experience nature totally anew. Depending on the season, come and be fascinated by a variety of exotic butterflies, rejoice in rabbits and chicks, in leaftail geckos and bees. Or pay a visit to our colourful koi in the Japanese garden. Naturally you should also get to know our secret stars: Jupp & Co, our always cheerful team of rare white-handed gibbons. Many lively impressions from all over the world – all in one place.

RELAXING INSPIRING...

Let the Peace Buddha for Europe have its effect on you – a symbol of empathy and international understanding in unison with nature. And a gift from the Dalai Lama to the European continent! In Europe unique to the botanika Bremen.
